2 - When putting it on paper I realized it's easier to simply move to the second position.

9 - A few more notes added here.

11 - Sorry for the chord name!

16 - Use the index finger to hold bass strings, the ring one to keep the 3rd, and the middle one for F#.

18 - No idea what the chord is, it's just a little variation and it sounds nice. A little tricky fingering though, using the middle finger for the low C works fine most of the time!
